Anas Naif Alshammari

Software Engineer | Flutter Mobile Developer

Hail, Saudi Arabia | +966 54 707 7600 | ans125na@gmail.com | linkedin.com/in

Professional Summary

Results-driven Software Engineer with hands-on experience in full-stack mobile development and IT infrastructure. Founder and lead developer of Player Broker App, a cross-platform mobile application built with Flutter and a PHP/SQL backend, with prior IT experience at Hail Chamber managing internal networks and providing technical support. Holds a Bachelor's Degree in Software Engineering and combines strong technical problem-solving with a collaborative, solution-oriented mindset.

Work Experience

Founder & Lead Developer Jan 2026 – Present
Player Broker App

- Architected and designed the complete system for a cross-platform mobile application for iOS and Android using Flutter.
- Developed and hosted backend services and built databases using PHP and SQL to manage accounts and transaction data.
- Designed and built REST APIs to integrate the mobile frontend with the backend for efficient data retrieval.
- Conducted performance testing and debugging, optimizing app responsiveness under various conditions.
- Managed the full Software Development Life Cycle (SDLC), from inception and design to launch and maintenance.

IT Specialist Jun 2025 – Jan 2026
Hail Chamber

- Managed and operated internal communication networks and monitored the connectivity of chamber devices to the internet.
- Provided technical support to staff and troubleshot issues with desktop computers, printers, and software.
- Set up and maintained AV/IT equipment for the chamber's meeting rooms, events, and conferences.

Education

Bachelor's Degree in Software Engineering 2026
University of Hail
